

Final-Results of „Maritime Radio Day“ 2020

C/S „Monte Cervantes“

**There are no first, second and third prizes
we only want to show which station had most QSO's
<< It's taking part that counts <<**

A VERY IMPORTANT MESSAGE FROM THE FOUNDERS OF MRD

To all participants

Hand on your heart, did you read the rules of the MRD?

No, definitely not!

Please pay attention and keep in mind the following informations:

. First of all, no registration, no certificate!

1. Please read the rules in www.mrd.seefunker.eu. You can register from January 1st until registration deadline always April 1st.
2. For result-informations please only use .doc and .pdf-files, all former marine radio officers can only give me (by fair play!) the number of ships, coastal radio stations special stations and radio amateurs.
3. I don't need any logs from you. There is no difference between a ham and a friend of MRD. Speccial stations are lightvessels, museumships and radio schools.

- 4.** Pay attention to your email addresses, it happens that they do not work when I send the certificate.
- 5.** Pay attention to news under „news“ on the MRD-webpage.
- 6.** Please always write clearly, I am 84 years old and my eyes are no longer the best. Deadline for logs is April 30th Midnight.
- 7.** There is a new logsheet, please download and use it. We all should only use this.

Thanks to everyone for participation. Stay safe, good luck and QRX next year.

73 Rolf
